

Investing in a Greener America

- **Proven Program**
- **99% Investor Ownership**
- **Option to Convert to EB-5**
- **Investor Testimonials Available!**

Our mission is to help America's truckers operate environmentally compliant trucks. We carry out our mission with integrity, responsiveness, and flexibility. We take time to care for each owner-operator because we know their success is our success.

We strive to make the Pacific Northwest economically stronger and ecologically greener by delivering competitive, affordable loans for newer, cleaner trucks and deploying drivers throughout the region.

E-2 Program

- Min. \$400,000 investment
- Faster Processing Times
- Immigration Benefits for Dependents
- Renewable E-2 Visa Extensions
- Option to convert to EB-5
- 99% Ownership

The Green Truck E-2 Investor Program allows the opportunity for investors who contribute \$400,000 (plus set up and admin fees), to receive an E2 non-immigrant visa with renewable extensions of stay in the US—and the option to convert to our EB-5 program at any time.

The E-2 Program allows investors the opportunity to deploy and operate a fleet of Green Trucks. Green Truck's experienced team provides investors with all the requisite management tools to direct and develop their business, including GPS tracking, freight bidding, and fleet safety monitoring.

Green Truck charges a management and licensing fee for its services. Profits are reinvested and paid out upon winding up of the business.

Investors who take advantage of this program own 99% of the entity while Green Truck owns 1% and acts as co-manager of the business, at the supervision and discretion of the investor.
